

Forestry Qualification Review - Executive Summary

The Forestry Qualification Review will commence in May 2023. We will strengthen the Forestry qualifications from Level 2 to Level 6, resulting in the robust transformation of the suite.

Partnership approach with:

We will:

- conduct an analysis to clarify the needs of all partners and identify opportunities for transformation.
- create products to streamline the suite of qualifications, eliminate redundancies and ensure consistency of outcomes.
- develop a suite of qualifications that are fit for purpose and equip ākonga with the knowledge, skills, and attributes to succeed in the Forestry industry.

The review will align with the Muka Tangata New Approach to Learner Pathways

Review Scope

- Level 2 - 1 Qualification
- Level 3 - 3 Qualifications
- Level 4 - 4 Qualifications
- Level 5 - 1 Qualification
- Level 6 - 1 Qualification

Design Principles		
Qualifications	Micro-credentials	Skill standards
<ul style="list-style-type: none"> • for an industry are coherent and create pathways • have standardised sizes. • have pre-designed exit points. • have strands. • have optional elements. • have fully stacked micro credentials 	<ul style="list-style-type: none"> • used in three ways; stackable, additional, stand alone. • are designed so they can be used to recognise iwitanga and hapūtanga 	<ul style="list-style-type: none"> • are developed and made compulsory where useful. • are less prescriptive. • have standardised sizes. • are designed so they can be used to recognise iwitanga and hapūtanga
