

Forestry

This moderation report covers activities for the period April - June 2023.

Since June 2022, **seven new or revised programmes have been endorsed** by Muka Tangata for use in the Forestry industry.

Forestry was a moderation focus area in 2023.

Between April and June 2023, we called for **94 ākongā (learner) assessment samples** from **11 providers** delivering standards in the industry. These were desk-based moderated.

Our moderators agreed with 83% of the providers assessment judgements - this is higher than the all-of sector verification rate of 70% for this period, and signals clearly that overall, ākongā are being assessed to the industry standard.

Over this period, we have carried out onsite and online hui whakapūmau enhancement visits with **three Forestry providers** to observe delivery and assessment of Forestry standards.

Over the year, we facilitated **22 professional development online seminars** for providers around best practice assessment, meeting programme endorsement considerations, and te ao Māori.
