

Seafood

This moderation report covers activities for the period October - December 2023.

Since June 2022, **four new or revised programmes have been endorsed** by Muka Tangata for use in the Seafood industry.

In the period between October and December 2023, we called for **36 ākonga (learner) assessment samples** from **four providers** delivering standards in this industry. This was 80% of providers who assessed in the Seafood industry in 2023. These were desk-based moderated.

Our moderators agreed with 75% of the providers assessment judgements - this is in line with the all-of sector verification rate of 76% for this period, and signals that overall, ākonga are being assessed to the industry standard.

Of the 14 ākonga Māori samples moderated, our moderators agreed with all of the 14 assessor decisions.

To continue to support this industry, Seafood will be a focus area for 2024.

We carried out **one online hui whakapūmau enhancement visit with a school** to discuss their aquaculture programme and **visited a provider** to support them in 2023.

Over the year, we facilitated **22 professional development online seminars** for providers around best practice assessment, meeting programme endorsement considerations, and te ao Māori.
