

Sheep and Beef Cattle

This moderation report covers activities for the period July - September 2023.

Since June 2022, **seven new or revised programmes have been endorsed** by Muka Tangata for use in the Sheep and Beef Cattle Farming industry.

In the period between July and September 2023, we called for **45 ākonga (learner) assessment samples** from **five providers** delivering standards in the industry. These were desk-based moderated.

Our moderators agreed with 87% of the providers assessment judgements - this is higher than the all-of sector verification rate of 77% for this period, and signals clearly that, overall, ākonga are being assessed to the industry standard.

All five ākonga Māori samples moderated met the moderation standard and all providers moderated met the standard in this industry.

Over this period, we have carried out onsite and online hui whakapūmau enhancement visits with **one Sheep and Beef Cattle industry provider** where we discussed delivery and assessment of their programmes.

Over the year, we facilitated **22 professional development online seminars** for providers around best practice assessment, meeting programme endorsement considerations, and te ao Māori.
