

Veterinary and Animal Care

This moderation report covers activities for the period April – June 2024.

In 2024 **two new Level 6 Diploma in Veterinary Nursing programmes** have been endorsed by Muka Tangata for use.

Between April and June 2024, we called for **36 ākonga (learner) assessment samples** from **four providers** delivering standards in the industry. In this particular industry there are only a relatively small number of providers assessing these unit standards – similar to both 2022 and 2023. These were desk based moderated.

Our moderators agreed with 91% of the providers' assessment judgments. This is significantly higher than the all-of-sector verification rate of 78% for this period. This indicates clearly that overall, ākonga are being assessed to the industry standard.

Three of four ākonga Māori learner samples met the standard.

Muka Tangata's new approach to quality assurance focuses on building strong and enduring relations with providers; moderating at the programme level; and using moderation tools that make a difference.
