

Poultry farming

This moderation report covers activities for the period October-December 2024.

Over the period, we called for **nine ākonga (learner) assessment samples** from the **one provider** delivering standards in this industry. These were desk-based moderated.

Our moderators agreed with 88% of the providers' assessment judgments – this is above the all-of-sector verification rate of 83% for this period. Five out of six samples from ākonga Māori were found to meet the standard.

Results show this one provider moderated met the moderation requirements. There were many examples of good practice assessment that our moderators were able to feedback to the provider.

Interventions to improve verification rates and support providers have been in place sector-wide such as hui whakapūmau provider site visit, online seminars and professional development workshops conducted face to face for individual providers.

Moderation results, positive or otherwise are discussed with the provider, and followed up with a report. Any actions for improvements are agreed with the provider and implemented.
